TCRA Project Coordinator

Charles P. Webster, CSP
Health and Safety Manager

Revision to Section 4.22.3 Proper Clothing for Water-Based Operations on Page 4-42: Thermal-Protective Clothing and Equipment – In addition to PFDs, personnel who are working in boats over water when water temperatures are below 50°F must be equipped with thermal-protective clothing and equipment (wet suits, dry suits, etc.). The Health and Safety Site Manager and Supervisor can limit and modify this requirement if other health and safety considerations (e.g., heat-related injury) could potentially outweigh the necessity of immersion protection. The thermal-protective clothing must be adequate to protect personnel from hypothermic effects of immersion in water at the temperatures encountered

**Multi-Area Health and Safety
Plan: Addendum 3, Change to
Thermal – Protective Clothing
Requirement**
